Special Hauling Permit

All heavy equipment operations using county roads must obtain an approved "Special Hauling Permit" before starting any hauling. There is $150.00 charge for the permit. The appropriate Township Trustees must also be contacted before hauling on township roads. Township Trustee lists are available at the County Engineer's Office. During the period of high soil moisture and potential freeze/thaw cycles, the legal load limits on all county and township roads are reduced 50%. The load reduction period, set by the Harrison County Commissioners, is between November 15 and April 15. This period is locally referred to as the "Frost Law Period". All heavy hauling on county roads during the Frost Law Period are required to provide a bond. The normal bond during the Frost Law Period is $500 per mile bond . The County Commissioners normally permit heavy haulers to post only a $500 cash deposit. A higher bond and cash deposit may be required due to roadway conditions, amount of product to be hauled or poor cooperation from the company. ***Checks are made payable to the Harrison County Engineer.*** The bond will be returned to the company or transferred to another permit in whole or in part depending on the condition of the road after all hauling is completed. The County Engineer will determine the cost to repair any road damage found and bill the company. Requests for return or transfer of any bonds must be in writing. After the payment of all billed road repairs and approval by the County Engineer, the bond will be returned or transferred.

Heavy hauling may only be permitted when the roadway is frozen during the Frost Law Period. The company must contact the County Engineer's Office each time they are planning any heavy hauling during the Frost Law Period.

Attach a map at a scale of one inch equals one mile. Show the area from which you are hauling on the map using yellow highlight. Mark in red the county and/or township roads that will be used by your operation. Put the company name on the map. The map must be signed and dated by an authorized representative of the company.

Applicant:
Address: _____

_____

Email: _____

Contact Person(s):

_____(Main Office) Phone: _____

_____ (Local) Phone: _____

General Location:

Please review the "Provisions of the Special Hauling Permit" and sign on the second page.

Provisions of the Special Hauling Permit

1. The applicant will see that a copy of the permit and map will be available for inspection by any representative of county or township government when work is being performed in connection with the hauling operation.

   A. At the site of the operation.

   B. On any large vehicle using county/township roads.

2. The applicant will arrange with the County Engineer and/or Township Trustees to view the location of all driveways to be used for the subject operation. The driveways will be improved or built as directed by the County Engineer. All appropriate permits will be obtained prior to construction.
3. The applicant will provide equipment and personnel at all times to remove mud and other material from the pavement, ditches or pipes carried onto the roadway by the establishment and maintenance of the subject operation.
4. Any area disturbed within the county or township roadway shall be seeded by the applicant in such a manner to establish permanent vegetation to control erosion, as directed by the Harrison County Soil & Water Conservation District.
5. The applicant or anyone involved in the subject operation will not park any vehicles, equipment, or supplies within the county or township roadway.
6. The applicant will provide signs and other devices to warn the public of the road conditions, ie "Damaged Road Surface Ahead", "Slippery Road Surface Ahead" etc., as directed by the County Engineer.
7. The applicant will notify the county each time the operation is started or suspended.
8. The posted weight limit on bridges must be strictly observed.
9. The applicant agrees to be responsible for the cost of repairing all damage to county and/or township roadways and roadway structures caused by the operation. The applicant agrees to provide a bond or other security to the county and/or township trustees respectively, if required.
10. Other provisions:
11. List all known contractors that will be working on the subject operation.

I hereby affirm that I am the applicant or authorized representative and that the information provided on this permit and attached map is correct to the best of my knowledge and that I will see that the provisions of this permit are carried out.
